

Policy Title: Interviews with Students

Policy No: 505.04

Interviews with students by non-school personnel are permissible provided that the purpose of the interview is related to what the student is doing in school, or if it involves employment or further training after the student completes school.

In any event, the criteria used to determine whether interviews of students will be permitted are the benefits the students might receive as a result of the interview. Interviewers must be pre-approved by the building principal.
