

A teacher is to be appointed by each building principal as sponsor for each organization, club, or activity.

The sponsor(s) must be in attendance at all activities of any club, organization, or activity.

All funds derived from school-sponsored functions must be strictly accounted for and turned in to the high school or middle school activity funds of which the high school or middle school secretary is in charge.

There are to be no initiations into any organization, club or activity in the school. This includes private as well as public initiations.

Authorized initiations will be limited to a regularly called class or organization meeting and all activities will have been approved by the principal and staff member in charge, previous to the meeting. This prohibits any type of initiations at any time, on or off the campus.
